

The 55th Annual Society of Plastics Engineers Color and Appearance Division CAD RETEC® is just around the corner. This year's conference will be held in Milwaukee, Wisconsin, and will be a great location to meet and discuss color topics. This year's theme is "What's Brewing with Color?". CAD RETEC® is the longest running and largest technical conference in the world devoted to the coloring of plastics. CAD RETEC® as a technical conference focuses on development, manufacturing and research in the field of color science, color measurement, and coloring plastics. In more recent years, it has evolved to also become an excellent venue for networking in this industry.

2017 EVENTS

- Preconference Color Seminar (separate registration required)
- Two full days of technical sessions
- 50+ exhibitors showcasing products and services
- Opening reception, Sunday evening
- Excellent Networking opportunities and receptions
- And More . . .
