

Bonnie Piro –

Technical Service and Marketing Manager
Sudarshan North America, Inc.

Education:

B.S Chemical Engineering – Drexel University, 1989

M.S. Engineering Management – Drexel University, 1992

I have been with Sudarshan for nearly 6 years working with both the US sales team and with our labs in India to provide the technical support needed. In addition, I head up the product promotion and customer learning and idea generation via our monthly webinar series – Pigment 101 and our Color of the Month series.

Prior to Sudarshan, I was with Axalta Coating Systems (formally DuPont) for 30 years and all of that time was in the pigment/colorant area – replacement, dispersion formulation and color matching and design.
