

Bonnie Piro

*Technical Service and Marketing Manager
Sudarshan North America, Inc.*

Education:

- B.S., Chemical Engineering – Drexel University, 1989
- M.S., Engineering Management – Drexel University, 1992

Bonnie Piro has extensive experience at Sudarshan, a global leader in pigments and color solutions, where she has contributed to both technical and commercial initiatives across coatings, plastics, and inks. She has expertise in pigment selection, formulation support, and product development, helping customers achieve optimal color performance and long-term durability. Bonnie has also played a key role in education and knowledge-sharing, including developing technical resources, webinars, and promotional campaigns that highlight innovations in color and appearance. Her work bridges the gap between scientific understanding and practical application, supporting customer success while advancing industry best practices.

Prior to joining Sudarshan, Bonnie spent 30 years with Axalta Coating Systems (formerly DuPont), all within the pigment and colorant field. Her expertise spans pigment replacement, dispersion formulation, color matching, and design, giving her a deep technical foundation and industry perspective on pigments in coatings and related applications.
